Project Completed 2009

Project Goal
Create an attractive environment to support student research and study. Since the library is a primary center of student activity, installation work was performed under constricted timelines to minimize disruption.

Project Scope
This project included refreshing a section of the first floor of the library with updated furnishings, including seating, tables, shelving and book and periodical displays.

Products
Bretford Legacy library shelving, display units and study tables, Dfm custom wood end panels to clad existing metal stacks and Integra Rendezvous tablet arm lounge chairs and Tria occasional tables
