Project Goal

This long established company developed a commercial property that included a second story office space for their corporate headquarters. This new site served to house their administrative and financial employees along with the construction teams. Together with the company's leadership we created a workspace to support the organization's brand and business goals.

Project Scope

20 workstations, 12 private offices, 2 executive offices, filing areas, boardroom, casual meeting areas

Products

Herman Miller Ethospace, Action Office 2, Meridian filing & storage; Workrite height-adjustable tables; National casegoods, Reno and Remedy seating; Dfm custom casegoods and conference table.
