

Groth Vineyards & Winery

Groth Vineyards & Winery
Oakville, CA

Industry Wine
Architect Robert Gianelli
Project Completed 2006

Project Goal

To support this family winery's expansion, a new building was constructed adjacent to the existing facility, creating a courtyard within the architecture of the estate property. The new space supports the organization's future business plans and includes offices for sales and marketing as well as the winemaker.

Project Scope

7 private offices, reception area, and staff wine tasting/conference room

Products

Herman Miller Passage workstations, Aeron task seating, Eames Molded Plywood & Aluminum Group chairs, George Nelson table, Dfm custom conference table
